Airway Interventions & Management in Emergencies

AIME Advanced

May 22, 2015

Halifax, NS

A Hands-on, Skill-focused Advanced Airway Learning Experience Using Clinical Cadavers.

AIME Advanced Audience: This program is designed for experienced clinicians. Clinicians will benefit most from this program if they have had prior airway management training/experience (AIME, Residency trained, significant 'field' experience).

Note: Potential attendees should be aware of the following
This course uses Clinical Cadavers that have been 'gifted' to the Human Body Donation program at Dalhousie. These bodies behave in a manner that is for the most part indistinguishable from live human tissue.

Course Highlights:

- High quality experienced and usually entertaining educators.
- 5-6:1 learner to instructor ratio.
- 5-6:1 Learner to clinical cadaver ratio.
- Hands-on, skill-focused simulation.
- An opportunity to practice learned techniques using clinical grade cadavers.
- Exposure to advanced equipment including various video laryngoscopes and other indirect intubation equipment.

AIME Training[®]

Program Objectives: Attendees will...

1. Build on their core airway skills to achieve positive patient outcomes in the acutely ill requiring airway management.
2. Reinforce best practice core skills using direct & indirect laryngoscopy.
3. Have an appreciation for airway topicalization in preparation for awake airway management.
4. Have multiple opportunities to perform and refine laryngoscopy (Video/Direct) skills on clinical cadavers.
5. Have an opportunity to practice airway management decision-making and technical skills using clinical cadavers.
6. Perform various advanced airway management techniques including flexible bronchoscopic intubation, and cricothyrotomy.

Program Day:

0800-0820 Introduction and what's new with O2
0820-0850 Workshop 1: Difficult Oxygenation Techniques
0850-0900 Direct & Indirect Laryngoscopy
0900-1000 Workshop 2: Direct Video Laryngoscopy
1000-1030 COFFEE
1030-1045 Difficult Intubation Algorithm
1045-1145 Workshop 3: Difficult Direct Video Laryngoscopy
1145-1230 Airway topicalization and awake intubation
1230-1300 LUNCH
1300-1400 Workshop 4: Indirect Video Laryngoscopy
1400-1500 Workshop 5: Exit strategies/Advanced Techniques
1500-1530 Case Discussions/Coffee
1530-1630 Workshop 6: Emergency Surgical Airway
1630-1730 Workshop 7: Skills practice
1730-1800 Wrap-up
